# PRESS RELEASE

NTT Digital

"scramberry WALLET", Digital Wallet for All, set to launch

— NTT Digital's brand offers new digital experiences —

Tokyo, Japan, March 12, 2024 ---NTT Digital, Inc. (hereinafter, "NTT Digital") announced today that they will release "scramberry WALLET", a digital wallet that can handle crypto-assets and NFTs. In addition to launching scramberry WALLET, NTT Digital will also release "scramberry" as a brand offering new digital experiences.

scramberry WALLET is a user-friendly digital wallet that focuses on security and safety. Key features include quick registration using only telephone number, easy-to-use operation to ensure many people can enjoy a smooth experience, including those who are using crypto-assets or NFTs for the first time. The wallet is also equipped with features such as private key backup and biometric authentication to provide users with a secure digital experience.

NTT Digital plans to provide each function of the wallet as an Application Programming Interface (hereinafter, "this API") for corporate customers by the end of 2024. By using this API, corporate customers can easily incorporate wallet

functions into their applications.

In addition to launching the wallet, NTT Digital will also position "scramberry" as a brand offering new digital experiences. New digital technologies will be used to provide various services in addition to the wallet.

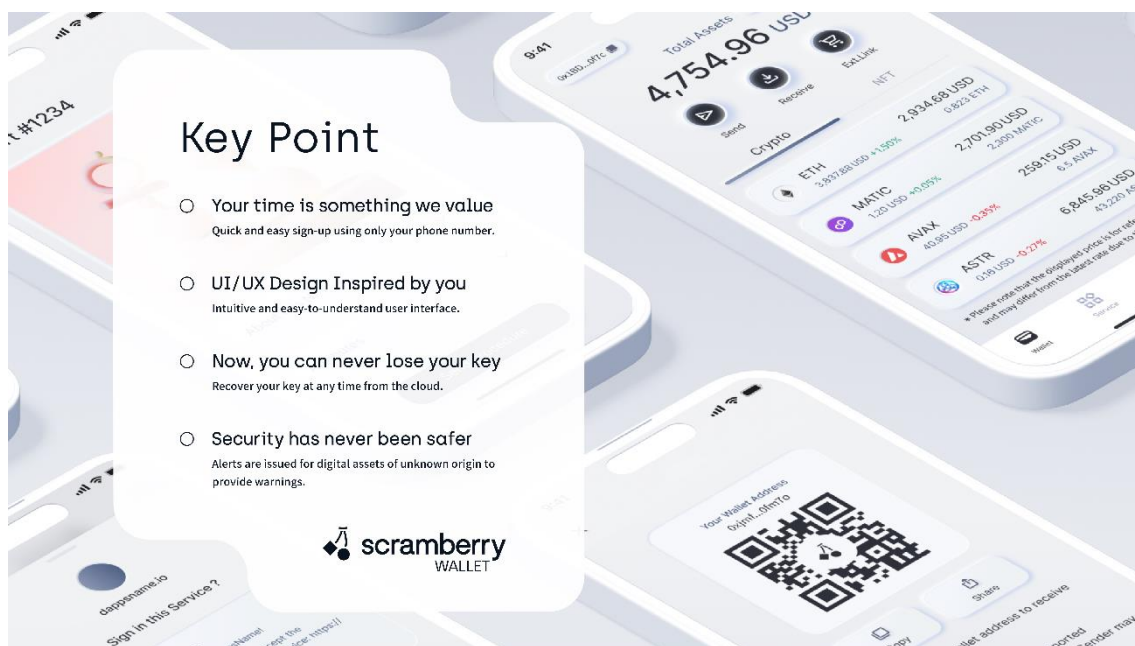

For more information about scramberry WALLET, and how to download, please refer to the appendix document and the official brand website (https://scramberry.io/).
